To Whom It May Concern, I just recently got XM Radio, and I do not know what I did without it. I do a lot of traveling throughout the United States. Having XM Radio Travel and weather has been a godsend to me. It keeps me informed on weather conditions and travel information during my travels. I think it is one of the best things for the consumers. Please keep it for all of us that feel it is vital to there jobs.

Thank you,
Darlene Venus
